

Data Sheet – #374b

100µ GLOSS WHITE PVC PERMANENT ADHESIVE

General #374b is a smooth glossy white PVC laminated with an extra-permanent, low shrinkage, clear acrylic adhesive. The PVC is suitable for printing by eco-solvent and solvent based inks and has a minimum outdoor life of 2 years.

Applications The glossy finish gives excellent print finish with vibrant colour and the high tack make this product suitable for covering many surfaces.

Application temperature +10°C to +40°C

Service temperature -20°C to +70°C

Product life 1 year

Special considerations Effort must be made to keep this product free from moisture and excessive exposure to ultraviolet radiation before use.

All data given is considered reliable but does not constitute a warranty. It is the responsibility of the user to satisfy themselves as to the suitability of the product for the particular application and conditions. A sample for this purpose will be supplied on request.
