

## Data Sheet – #1312

## CC/HDPE MATT WHITE PERMANENT

**Face Material** Matt white durable paper.  
(FSC® Certified) Basis Weight - 120g/m<sup>2</sup>  
Caliper - 100µm

**Adhesive** Permanent, acrylic based adhesive.

**Liner** White glassine paper.  
Basis Weight - 70g/m<sup>2</sup>  
Caliper - 61µm

**General** #1312 is a durable matt white material with a paper-feel to it. It contains 80% calcium carbonate bonded with 20% HDPE.

**Applications** Applications are predominantly in home and personal care but also where characteristics such as durability and matt-appearance are required.

The liner is made from FSC® Certified paper (FSC Mix Credit, chain-of-custody number: CU-COC-807907, Licence Code: C004451).

**Application temperature** Minimum 5°C

**Service temperature** -20°C to +80°C

**Product life** 2 years when stored at 20-25°C | 40-50% RH

**Special considerations** The adhesive complies with the European food directives and legislations, FDA § 175.105 and the German Recommendation S XIV as published by BfR. BfR (Bundesinstitut für Risikobewertung) is the German Federal Institute for Risk Assessment.

The adhesive side may stand in direct contact with dry, moist and such fatty foodstuffs which have a correction factor of at least 3 according to the Regulation (EU) No 10/2011.

The face material is compliant with 1935/2004/EC requirements for direct contact with all types of food, except acidic, under room temperature applications.

All data given is considered reliable but does not constitute a warranty. It is the responsibility of the user to satisfy themselves as to the suitability of the product for the particular application and conditions. A sample for this purpose will be supplied on request.
