

## Data Sheet – #970

## GLOSS WHITE PVC PERMANENT ADHESIVE

**General** #970 is a 100- $\mu$ m cadmium-free, monomeric, calendared PVC which is coated with a clear pressure-sensitive, acrylic adhesive. The adhesive is resistant to most chemical agents (alcohol, diluted acids, oils).

**Applications** Very good adhesion on glass, steel, aluminium, PVC, melamine etc (except grained substrates or substrates covered with acrylic paints). Typical applications – promotional labelling, asset labels, label signs for indoor and outdoor use, warehouse racking labels, warning and information labels.

**Application temperature** +10°C Minimum

**Service temperature** -40°C to +90°C

**Product life** 1 year

**Special considerations** Vertical outdoor exposure on flat surfaces – 4 years
