

**Data Sheet - #276**

**MATT TOP WHITE**

General #276 is a white, polypropylene film. The film is orientated biaxially and has a good print-receptive finish.

**Applications** Applications are predominantly in market segments where rigid containers are used (e.g. Glass, PET). Due to fairly rigid nature of the film, we recommend additional testing prior to use on non-uniform surfaces.

The adhesive is a general purpose permanent, acrylic based adhesive. It is a clear adhesive featuring excellent UV resistance and weatherability together with good adhesion performance, even on apolar substrates.

Application temperature Minimum 5°C

Service temperature -20°C to +80°C

Product life 2 years when stored at 20-25°C | 40-50% RH

**Special considerations** The adhesive complies with the European food directives and legislations, FDA § 175.105, 1935/2004/EC and the German RecommendationS XIV as published by BfR. BfR (Bundesinstitut für Risikobewertung) is the German Federal Institute for Risk Assessment.

The adhesive side may stand in direct contact with dry, moist and such fatty foodstuffs which have a correction factor of at least 2 according to the Regulation (EU) No 10/2011.
