

**Data Sheet - #830**

**SILVER SATIN TRANSFER PET**

General #830 is a satin silver polyester film. The smooth surface is covered with a top-coat for excellent ink anchorage. The permanent acrylic adhesive has good initial tack and high ultimate adhesion onto a variety of substrates including apolar plastics and lacquers.

**Applications** Designed for conversion into identification, warning and tracking labels for durable goods such as electrical and electronic items. The face material features excellent thermal transfer printability with resin ribbons thanks to the special surface coating. The adhesive is specifically developed for labelling electronic, home appliance and other electrical items due to its good bonding performance on a wide range of polar and apolar surfaces including metals, polycarbonate, ABS and polypropylene.

Application temperature Minimum +10°C

Service temperature -40°C to +150°C

Product life 2 years when stored at 20-25°C | 40-50% RH
